Bringing high performance
to entry level for low cost

- 20 USD
- Open Design

Quiet Contributions

- Leader in the field without being a celebrity
- Content with providing
- Work is a backbone and a foundation of many new engineers introduction to the field

“It’s nice feeling to just know that instead of lying in a junk box or sitting on a shelf, my projects are living on.”

Jeff Dean

*Foundation of
Google Translate*

Stanford Ovshinsky

*NIMH Batteries, LCD,
CD/DVD, Fuel Cells*

Lyndon Rive

SolarCity

Andy Bechtolsheim

Sun Microsystems

As much as it is prized innovation and success does not require stardom

Not every entrepreneur is or needs to be a Musk to leave their mark, and maybe that preferable
